

TO: Permissions Manager

Dear Sir or Madam:

The American Bar Association (ABA) Standing Committee on Pro Bono and Public Service (the Pro Bono Committee) and the National Legal Aid and Defender Association (NLADA) annually co-sponsor the Equal Justice Conference. The Conference is a national gathering of advocates who work for pro bono programs, legal services offices and other organizations that seek to improve the delivery of free legal services to low-income clients. At the Conference, these advocates share ideas, learn about new trends, improve their management and advocacy skills, and gain substantive knowledge of poverty law. The ABA and NLADA are not for profit corporations.

Among the principal means for providing attendees a rich learning environment is the dissemination of current information to Conference participants. Most of the materials correspond to the subject presented at the over 100 panels presented during the Conference. In addition, some materials may be distributed electronically via the Internet.

The Pro Bono Committee and NLADA hereby request permission to reproduce and disseminate, in print and/or electronic form, the publications listed on the attached release form. The Pro Bono Committee and NLADA do not seek permission to republish this information, in whole or in part, in any ABA or NLADA publication, or any other publication. Neither the ABA nor NLADA will be compensated for distributing this information except to cover the cost of postage from those who request print copies.

If you are not the copyright holder of these documents, or if additional permission is needed from another source, please indicate this.

Thank you for your consideration of this request.

Sincerely,
