Background Summary: Please note that “Koetting” rhymes with “setting.” I have 15 years of experience working in multiple clinical, legal, research, and administrative capacities within forensic mental health settings. Those include outpatient, correctional, inpatient, and residential programs for individuals in the legal system. I have practiced in the specialized fields of evaluating and treating violent offenders for approximately 12 years and sexual offenders for over 8 years. I have performed numerous evaluations of violence risk, criminal responsibility, competency to stand trial, and qualification as a ‘sexually violent predator.’ I have also given presentations at national and state conferences, to federal judges, to parole agents, and to defense attorneys.
